

## Clark Forklift

Currently, there are over 350,000 Clark lift trucks performing worldwide, and upwards of 250,000 in service in North America alone. With five main lines across the world, Clark is proud to be one of the most expansive organizations in the industry. Heavy duty vehicles ranging from 1,500lb to 18,000lb capacities, dual fuel, gas, LPG, hand-driven lift trucks, narrow-aisle stackers and electric riders are some of their specialties.

Clark Totalift has 20 unique brands of forklifts, with parts covering more than 120,000 specialized components for all of its automated equipment. Your regional Clark Supplier is your total source for availability of all your components needs supplied by Clark Totalift.

Clark's phenomenal Parts Distribution Stores are conveniently situated in Louisville, Kentucky, which serves both their clients and sellers in North America, and Changwon, South Korea, which handles their Asian dealers and consumers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing companies. Driven to supply the highest level of value and service to our clients, Clark remains on the cutting edge when it comes to improving output and benefiting performance.

Clark Totalift has a really impressive intercontinental support network. With over 550 locations worldwide, dealer representation in over 80 nations and 230 locations in North America, their high level of dedication to their consumers predominates the materials handling market.

Clark proudly remains an progressive leader of the material handling industry, pioneering safety features such as the worker restraint system. This exceptional dedication to safety is at this time a standard feature on every forklift.

Clark's relentless mission to possess the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first forklift producer across the globe to be certified with the globally approved quality standard ISO 9001 for each and every one of their production facilities. Also, the ISO 14001 Environmental Management System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement allows Clark to be prepared for any number of environmental limitations, thus placing them in a prevailing industry position.

### Supply Efficient Manufacturing

Clark has chosen the very economical and advantageous system of "Lean Production" for its assembly facilities and application of resources. This system was developed to acknowledge the most successful method of production facility stewardship and ensuring maximum proficiency. Clark has concluded this transition of its Korean plant. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and production efficiencies.

### Engine Design

By working in concert, Clark's product suppliers and engineers communicate towards improving product proficiency while minimizing costs. The new value engineering agenda combines modern product development and provides superior client support and service within the industry.
